The Homestcail Law.

The U. S. House Committee on Military Affairs have agreed to report a bill to modify the provisions of the Homestead law for the henefit of the soldiers and sailors of the late war. The right is given the lolder of a certificate to assign it, in which case, the assignee sneeceds to the privileges of the soldier and gets the benefit of the diminished trace of occupation. The senate passed the believed to the pation. The assignee may also purchase certificates to the amount of 640 acres, which must, however, he continguous. which must, however, he contiguous. Conkling presented a protest of the Western Union Telegraph Company against the postal lelegraph scheme.

The tariff bill reported by the Senate Finance Committee does not abolish the tax on ten and eaflee, but places them at 10 and 12 rents respectively. The duty on salt is the same as when the bill was recommitted. There is a change in the duty on bother. After the lat of July such, probably met less than 2,000,000, will be so immense that their value will be trilling, and the soldiers will not be recompensed for the expenses they will be put to in the preparation of evidence and the payment of agents to establish their claims. Another objection is that the bill will scriously interfere with the Homestend system. The Idll has been prepared with the object of doing soncetting to meet the demands of the soldiers, who are still petitioning Congress diers, who are still petitioning Congress aged three months, in a cell of the stuland grants, as was done for the soldiers ings, in Philadelphia.

And meekly scratched his tose. He looked his hymn book through and through And then a pensive sigh he drew.
